

TerraQuant Laser - General Product Line

TerraQuant LS50

The Laser Shower is a must have for the clinician who desires the most technologically advanced equipment. The Laser Shower LS50 emitter has a higher photonic density saturation, shorter treatment times and the ability to treat a broader coverage area with more power.

\$4,595

Acupuncture Probes

(optional)

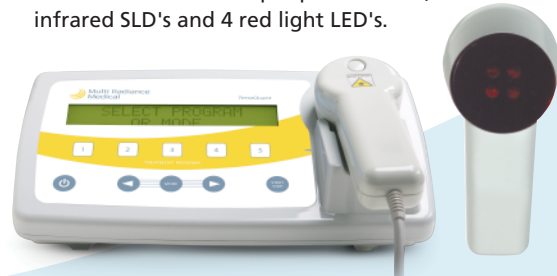

Designed for TQ S25 Emitter \$249

TerraQuant ELITE

\$5,790

The TerraQuant® Elite package is a powerful and effective bundle. It includes one SE25 emitter and one LS50 emitter (Laser Shower). The Laser Shower has a total of 12 diodes: 4 super pulsed lasers, 4 infrared SLD's and 4 red light LED's.

TQ Solo Portable \$1,995

UP TO 18 HOURS BATTERY LIFE

TQ Solo is FDA cleared pain-relieving battery operating device. This compact portable device gives you the power to relieve both chronic and acute pain. Administering effective light therapy is simple with three preset frequencies and an easy to use pain-relieving guide.

TerraQuant Pro

\$3,495

Comprehensive package with everything you need, right out of the box, to start treating patients. This system includes the SE25 standard emitter. The ability to attach probes to the SE25 makes this emitter extremely versatile. This super pulsed laser system produces 25W of peak laser power.

TQ S25

\$1,195

The TQ S25 Emitter bolsters exclusive Multi Radiance Technology™ (MRT) with an amazing 25,000mW of peak laser power. MRT is the synergistic combination of red light, infrared light, magnetic field, and the fastest super pulsed laser in the world. The TQ S25 is threaded for the attachment of acupuncture probes to assist in various treatments.

- 25,000mW of peak power
- 4 cm² coverage area
- 1 GaAs Super Pulsed Laser
- 4 Infrared emitting Diodes
- 4 Red light emitting Diodes

TQ LS50 (Laser Shower)

\$2,295

Enhance your therapy results. 4 super pulsed GaAs lasers (compare to 1 GaAs super pulsed laser in the TQ S25) are housed inside the TQ LS50 Laser Shower. Benefits include: higher photonic density, shorter treatment times, the ability to treat a broader coverage area and more power.

- 50,000mW of peak power
- 20 cm² coverage area
- 4 GaAs Super Pulsed Laser
- 4 Infrared emitting Diodes
- 4 Red light emitting Diodes

TQ Soft Cluster

\$1,995

The TQ Soft Cluster is equipped with exclusive MRT and is fitted with the similar hardware as the LS50 but the flexible light fingers. This special head enables the TQ Sort Cluster to excel in treating small joints, the spine and hand therapy.

- 30,000mW of peak power
- 20 cm² coverage area
- 1 GaAs Super Pulsed Laser
- 4 Infrared emitting Diodes
- 4 Red light emitting Diodes

TQ LS50-6D (Rectangular Laser Shower) \$2,295

The largest coverage area of any emitter with MRT. The rectangular Laser Shower is the perfect fit for treating large areas. Due to the size of this emitter it is incompartibel with out hands free armatures.

- 50,000mW of peak power
- 30 cm² coverage area
- 6 GaAs Super Pulsed Laser
- 4 Infrared emitting Diodes
- 4 Red light emitting Diodes
